TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25% of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

Collectors who make unlimited bids will get the lots at 5% above the highest actual bid entered.

The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Between the seller and buyer, my position is describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

NOTE—A printed list of all the prices realized at this sale will be sent for fifty cents (50c). Send coin or stamps with your bids so as to reserve a price list, or if you prefer, we will add the cost to your bill of items purchased for you at this sale. Keep posted on coin values as they are today, and order a price list in advance of the sale. After the sale they cost \$1. Before, they are 50 cents.

Find a Pirate Chest of Gold. A small fortune of gold was drawn through the suction pipe of the U.S. Engineers dredger Orleans May 26 when the vessel, engaged in deepening the harbor at San Juan, Porto Rico, crashed open a sunken chest and spilled old Spanish coins along the bottom of the sea. As the dredger was moving slowly through the harbor the machinery suddenly stopped and the crew heard clinking sounds inside the 1200 foot pipe through which the slime is carried to fill in Catano flats, across from San Juan. Investigation revealed the coins, dated from 1790 to 1840. The sailors will be mining for them on the flats when the slime hardens.

A TRIP ABROAD

(Continued from 124th Catalog)

It is Saturday the first day of August, when we travel by train from Salzburg, Austria, to Munich, Germany. This country is interesting, the region a plateau in the very southernmost part of Germany. We pass around the Chien See, a high lake. We see oxen in the fields, working. The climate is cool and changeable. The city of Munich is 1700 feet above sea level. It is the fourth largest city of Germany and the capital of Bavaria, with over 700,000 people. We arrive in time for lunch, then ride sight-seeing busses to see the city. There are interesting very old buildings, fine architecture, handsome wide streets, public squares, promenades, and great statues. One statue 65 feet high represents the female "Bavaria." It is a colossal hollow bronze figure, designed by the famous Schwanthaler and cast from foreign cannon.

The old Pinakothek built 1826-36 contains a valuable collection of paintings by the earlier masters, the chief treasures being the early German and Flemish works and the unusually numerous examples of Rubens. Opposite stands the new Pinakothek built 1846-53 containing works by painters of the last century. The Glyptothek of Ionic style contains valuable ancient and modern sculpture. The Bavarian National Museum houses a very fine government coin collection. Many famous coins are seen here, including one of the very few large dekadrachms of Agrigentum and the finest known example. With so many prizes to look at and study, there was little time in our few days' stay to pawn through shops. This city is a treat for art students.

The original town was once surrounded by walls and ditches, and the Isar river on one side. Entrance in old times was through lofty turreted gates. Some of the gates are still to be seen. The German Museum here is the finest museum of technology and the physical sciences in the world, and worthy of many days of study.

In 1158 a mint and a salt-emporium were established at the then obscure village, and the city began its growth. This early mint was founded by Henry the Lion. The city's name came from the Monks who owned the site. The modern city has become famous for its large breweries, and beer gardens. Hofbrau house is worthy of a visit by the total abstainer. There, in its inner court, and on its many floors, beer is served in all styles to suit the guests. (To be continued.)

For 51 years its monthly visits has been a source of inspiration and a stimulus to all grades of collectors from the beginner to the advanced student.
